

GET CONNECTED... Education is a partnership involving effective communication and support across our entire school community.

Our Lady of Prompt Succor School offers parents the opportunity to publicize their business in our special publication, *OLPS Parent Business Connect*, that will be included on our website, beginning January 1. Our goal is to provide a platform that informs OLPS families so that they may choose to support other school families when doing business in the local region. This development of community support among parents goes a long way towards strengthening the common bonds that our parents share through their children, and their association with OLPS.

Inclusion in the *OLPS Parent Business Connect* is completely voluntary and free to parents who are business owners. OLPS offers this directory as a service to the school community for informational purposes only. Your involvement must be updated each school year and business owners will need to return the form with their registration information.

If you would like to submit your business for the first publication of the directory, please complete the form and return it to the school office no later than December 8, 2017.
